**Dear Executive, or Owner**

Please advertise your business to business or business to consumer activity with me. Place your ad with me to support your local exposure and start to connect growth the business / organization / resident / consumer to a network in print and on the web. **(a business social network to reduce cost and risk)**

See a full description of why you should connect in the media kit. (Connection is Early Reading Skills)

**Business to consumer advertising-** The USA Flyer is 28x20 inch front and back 4 color printed on gloss text. It sends an important public service message, in a format that will be opened, covering 40,000 residents in Northern Dakota County. It gives you an important local cause to work with and is supported on the web with twice monthly coupon emails.

**This will give you exposure beyond what you now have at a reduced cost.**

**Business to business advertising-** All size businesses are invited to the listing and linking with growth services. Additionally, all size businesses are encouraged to send the PSM to their employees. All Businesses are encouraged to help us record Opt-ins for the Business to Consumer Network. The **Business to Business Post It Listings** are published quarterly in a single focus email to promote growth with all business, organizations, churches and apartments. **This is added local and national exposure for you for \$1 per day.** You will know how many people visited the landing page and your page. This landing page is being set to be a national demonstration.

Your business will be seen building the brand standing for growth and innovation with growth economics, education, emotions and ethics within the community seen first in terms of Early Reading Skills Delivered-Ringing Advantages. This **is excellence from you and you will want to be a part of it.** A major part of any progress we can make locally will be connected to informing the most at risk moms and children via an advertised public service message. I might add that with excellence comes a maximization of our asset, attributes, capacities and real estate values. **This issue has a national growth focus linked to Nobel Award winning economics.** <http://www.heckmanequation.org/>. Professor Heckman uses the word America, please, you should use the concept of your main street and Our babies Can Read.
